

HAPPY APRIL 23RD  
NATIONAL  
SOVEREIGNTY AND  
CHILDREN'S DAY!!!

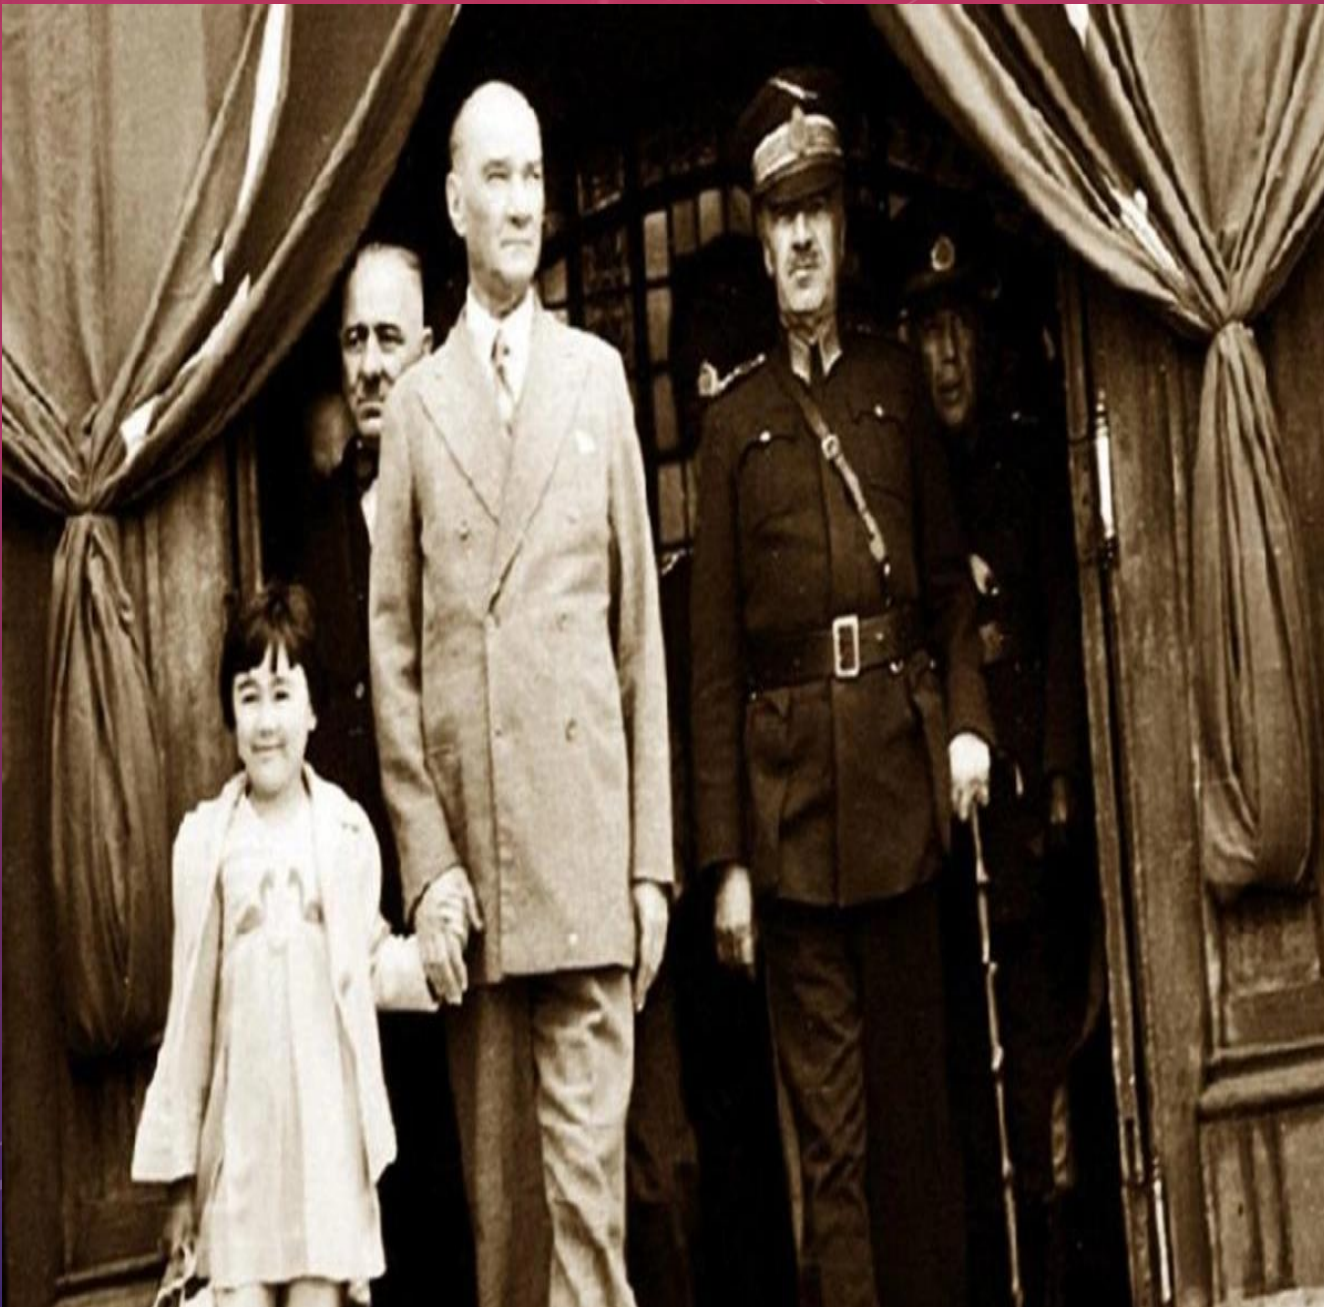

“Little ladies, little gentlemen! You are all a rose, star and light of prosperity of the future. You are the ones who will drown the country in real light. ”

"April 23rd is the beginning of a new turning point in Turkey's national history. A whole world of hostility against the people of Turkey leg shield, Turkey represents a great showing in the Grand National Assembly to bring the issue to occur."

"Today's little ones are tomorrow's big ones. Protecting the homeland starts with protecting children. The one who is not sovereign will have to submit."

"Let's look at our children,  
who are the guarantee of  
tomorrow, with the eyes of  
tomorrow so that our  
tomorrows will be bright."

*April 23rd is the day we  
found salvation, getting over  
darkness.*

"Sovereignty can never accept partnership in terms of any form, meaning party color or emblem."

*Children are the roots of our  
country*

Sovereignty belongs to the nation. Any other authority but Grand National Assembly of Turkey can not be active in the nation's destiny.

The future of the Turkish Nation will be big and brilliant with the correct vision of today's children and the determination to work without the ability to get tired.
